instruction delivered

Our Mission: Reach, Incorporated is dedicated to developing grade-level readers and capable leaders among high school teens and elementary students in DC Wards 4-8.

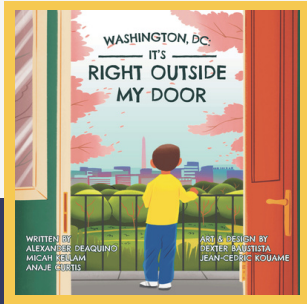

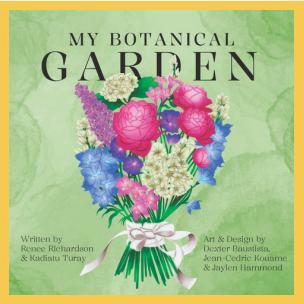

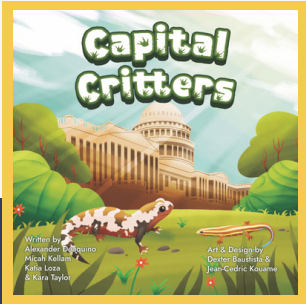

Our Programs

- After-School Tutoring Program (ASTP) – Teens become trained literacy tutors for second and third-grade students.
- Summer Leadership Academy (SLA) – Teens build confidence, collaboration, and leadership through civic engagement and academic enrichment.
- Teen Publishing Project (TPP) – Teens research, write, and publish their own non-fiction children’s books.

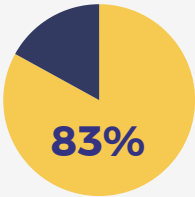

Literacy and Personal Growth

- 92% of returning Ballou High School tutors increased their i-Ready literacy scores, with 84% making gains of 20+ points in Spring 2025.
- 50% of H.D. Woodson High School tutors increased their i-Ready literacy scores by 20+ points in Spring 2025.
- 57% of the Reach Class of 2025 graduated from Coolidge High School; 100% of these teens plan to pursue careers in the medical field.

Leadership Development

83% of Reach teens assessed were emerging in at least one capacity for social-emotional learning growth.

"While the focus is on academics, Reach teaches young people about the responsibilities and commitments related to having a job and the importance of working with younger students in the community. It allows our scholars to be role models for the next generation."

-H.D. Woodson High School
Assistant Principal
